

### **Academic Support:**

If your student is struggling with homework completion or content understanding, please encourage them to communicate their experiences, feelings, and struggles to their instructors, in email or in person. The social worker can also provide support in these conversations. Teachers hold office hours two times weekly, both in the mornings and after school. This is a time when your student can seek extra help with class content and homework. The schedule for office hours can be found here. [Office Hours Schedule](#)

Additionally, most Chicago Public Libraries also offer free homework help as well. The West Town Public Library is located at 1625 W. Chicago Avenue. Phone number: 312-743-0450.
